

Great beginnings
start here.

DLSL

SENIOR

HIGH SCHOOL

WE ARE AHEAD!

Since 2014, De La Salle Lipa has been offering the DepEd approved two-year Senior High School curriculum for students based on the career track of their choice. The tracks will hone skills and achieve mastery of competencies needed in the job market - compelling every student to be equipped and globally competitive.

CAREER STRANDS and PROGRAMS

De La Salle Lipa offers the Academic Track to institute mastery of necessary skills and competencies to ultimately prepare the students for further studies, employment or entrepreneurship and meet international standards on fundamental education. The following strands under the DLSL Senior High School Academic Track are:

ABM

Accountancy,
Business &
Management

STEM

Science,
Technology,
Engineering &
Mathematics

HUMSS

Humanities &
Social Science

GAS

General
Academics

For those gearing towards the same or related careers on:

- Entrepreneurship
- Marketing
- Economics
- Finance
- Business
- Tourism
- Hospitality
- Legal Management

- Engineering Specializations
- Architecture
- Medicine or Science-related careers,
- Information Technology
- Mathematically inclined degrees

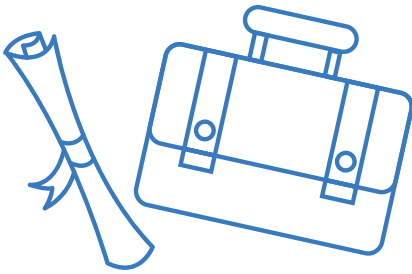

- Education
- Communication
- Multimedia
- Philosophy
- Literature
- Religion
- History
- Language

For students who are still in an interim period of choosing their preferred strand. GAS offers basic electives from the different strands previously outlined.

On ADMINISTRATORS and FACULTY MEMBERS

Competent and seasoned faculty members with masters and doctorate degrees have been tapped to serve to provide a deeper perspective of the instruction akin to global standards.

FACILITIES are EQUIPPED and READY

Facilities are in place to accommodate incoming Senior High School students.

The Jose Rizal Hall, comprising of two buildings, have air-conditioned classrooms equipped with audio-visual equipment and internet-connected computers that are ready for use.

To practically introduce the students to their future programs and eventually, careers, laboratories are likewise available to facilitate their learning.

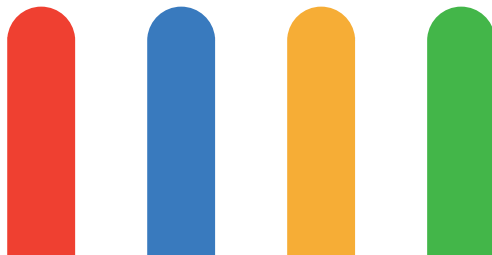

WITH A WIDE NETWORK OF INDUSTRY PARTNERSHIP

The industry partners of the institution will come in handy for the students who would appreciate the theoretical aspects of learning through actual practice.

Deepening of instruction may take place off-site to integrate practical application and acquire sufficient exposure to various industries with parallel and congruent nature of business to varied tracks.

Multinational companies, corporations, agencies and independent entities will accommodate students to hone their skills and discover untapped potentials.
